1 Preamble

1.1 Purpose of the BSME Sports Tournaments Handbook

When making this decision, it is important that the Principal and Head of PE has a thorough understanding of, and accept the recommendations detailed in this Handbook.
- Provide the lead of the team responsible for organising the tournament with a structure to help them with their planning and the information necessary to organise the sports competitions.

1.2 Co-opted HoPE Meeting

- The annual meeting of co-opted Heads of PE (HoPE) and BSME Students Committee members provides the opportunity for both parties to agree recommendations for ongoing improvements to the structure and organisation of the sports tournaments.

1.4 Procedures for updating the Handbook

- The Handbook will be reviewed annually at the co-opted HoPE Meeting.
- The BSME HoPE Chair and Vice-Chair may make minor changes to the Handbook.
- The BSME HoPE Committee may make major changes to the Handbook.
- Proposals may be submitted to the BSME Students Leads at any time throughout the year.
- Proposals for changes must be submitted before the meeting and included in the meeting agenda.
- For any local changes to the rules for the Tournaments, proposals must be sent to the BSME Students Lead as soon as possible following the procedure below:
 1. Students Lead will send each host school the Handbook as a Google doc with comment only access.
 2. Host schools cannot delete or change any rules without BSME HoPE Committee approval.
 3. Host schools need to propose and suggest changes to the Handbook, e.g. a 300m athletics track, not a 400m track.
 4. BSME Students Lead will then send proposed changes to the HoPE Committee for approval.
 5. Once approved by the HoPE Committee, the Sports Tournaments Handbook will be communicated to the Host School.

6. The Sports Tournaments Handbook will then be circulated to all Participating Schools of each particular Tournament.
- Any changes agreed by the HoPE Committee must be communicated to all participating schools at least 3 months prior to the event.

1.5 Calendar Planning

- From 2023-24 the Games Point System was implemented, this is required to make sure that more of our member schools host our events and it is a shared responsibility i.e. not the same schools hosting each year.
- The BSME Students Event Lead will write to Heads of PE in Term 1/ Term 2 to enable schools to come forward and propose a Games/ Tournaments that they would like to host.
- Host Schools will be allocated after a discussion with the HoPE Committee, with varying host countries taken into consideration for the academic year.
- BSME Country Representatives and the BSME Students and Executive Committees will meet at the BSME Annual Conference in March to finalise the hosting schools and agree proposals for the following years' BSME Students calendar.
- BSME Sports Tournaments will be allocated to a host school for a two year cycle, unless another format is agreed. I.E. If two host schools come forward, they could host for their two years across a four year period.
- After the two year cycle the host school can request to host the tournament again, however if another school comes forward requesting to host, they will take priority.

2 The Tournaments

2.1 Aims

- To provide students with a variety of sporting opportunities at an appropriate level for all member schools in a safe and competitive environment.

2.2 Objectives

- To ensure equal opportunity and participation to both boys and girls.
- To ensure the Tournaments provide a learning experience in sportsmanship and in the value of healthy competition.
- To understand the value of the benefits of training in preparation for competition.
- To enable students to specialise in sports appropriate to their age group.
- To enable schools to be able to host by having sufficient flexibility to organise a programme appropriate to their particular environment and capabilities.

2.3 General Information

- It is important to emphasise that hosting a successful BSME event requires considerable commitment and support on behalf of the Senior Management and Governors of the school. Inevitably there will be cost implications for the school with regards to staff time and facilities.
- The overall coordination of the Tournament must be the responsibility of the host school through a person as nominated by the Principal. This designated person will lead a team to organise the event, working closely with the host school's leadership team to utilise the expertise of the school community and with the support of the BSME Student Events Lead.
- A BSME HoPE committee member will be allocated to each host school to support in the planning process, acting as a point of contact to provide guidance, share best practice, and offer advice where needed throughout the preparation stages, as well as being available as a point of reference on the day of the event if required.

2.4 Host School Selection

- The BSME Students Event Lead will write to Heads of PE in Term 1/ Term 2 to confirm which sports tournaments require a new host school for the following academic year.
- Host Schools will be allocated after a discussion with the HoPE Committee, with varying host countries taken into consideration for the academic year.
- Each tournament will accommodate the maximum number of teams that the host site can facilitate with all factors considered i.e. how many pax would the site allow vs the duration period of the tournament.
- Each tournament will have their own 'key dates' in which participating schools must adhere to, these dates are confirmed by the host school and approved by the BSME Students Event Lead i.e.

*Should the event reach capacity then registration may close early and schools will be placed on a waiting list

- Netball will be a Size 5

6.8.2.a Substitution

- Both teams have the right to make substitutions and/or team changes:
 - a. During an interval.
 - b. When play is stopped for injury/illness of a player or blood.
- Both teams may make tactical changes immediately after a goal has been scored following a request from an on-court player to hold time for this purpose, ensuring that:
 - a. The umpire is clear the request is for a tactical change and not for injury/illness of a player or blood.
 - b. Any on-court players leave the court or change playing positions without delay.
 - c. Any substitutes take up their position on court without delay.
 - d. All team officials including primary care persons remain at the team bench.
 - e. The umpire is able to restart play quickly so the momentum of the match is not affected.
- There is no limit to the number of substitutions, which can be made by a team provided that players used do not exceed the total number listed at any team registration.

6.8.2.b Starting or restarting the game

- A coin toss between two representatives on each team is carried out before the match begins. This is to confirm who will have the first centre pass and which end the teams will shoot from.
- A central hooter will be used to start each round of matches, as well as the end of the first half and beginning of the second half. The umpire's whistle, however, officially starts and ends each period of play.
- Centre passes are taken alternately by the two Centres, after a goal has been scored.
- All players must start in the goal thirds except the two Centres.

- The Centre pass must be caught or touched by a player in or landing in or jumping from a stance in the Centre third.

- Once released, another player must next touch the ball.
- There must be room for a third player between the hands of the thrower and the catcher.
- A player on the ground must stand up before playing ball.
- Umpires will play advantage on a foul rather than blow the offence and re-set. There will be no set time on the advantage; that is at the umpires discretion.
- Without having possession, a player may:
 - a. Bat or bounce the ball to another player.
 - b. Bat the ball once, and then either bat or bounce the ball to another player.
 - c. Bounce the ball once, and then either bat or bounce the ball to another player.

- In the event of a draw during a semi-final or final match, five minutes extra time will be played. There will be a 1-minute break, and teams will change ends.

- If teams are still deadlocked at the end of extra time (with the exception of the final), play will continue until the next goal has been scored (the Golden Goal Rule).
- For the final, up to two periods of extra time may be played (with a 2 minute break between each period) before resorting to the Golden Goal Rule.
- To prevent excessive score disparities and to maintain team morale, a 10-goal mercy rule will be implemented. Once a team leads by 10 goals, this will be recorded as the official final score. Teams may then choose to continue playing without recording further scores or mutually agree to end the game.

6.8.3.a Golden Goal Rule

- In the event that scores are tied when the final hooter sounds at the end of extra time, the following procedure will be followed:
 - The umpire in control of play will blow their whistle to stop play.
 - All players remain on court in the exact place.
 - No substitutes can be made.
 - The umpire will explain that time is up, and that the next goal will decide the match.
 - Play will recommence with a free pass, in the place/area where play stopped, to the team in possession prior to the whistle being blown.

6.8.4 End of the Game

- There will be a bell/hooter to signal the end of time but the umpire's whistle will determine the end of the game.
- If the whistle to end play (or to hold time) is blown after the ball has left the hands of the shooter and the shot is successful, the goal will be scored.

10.6.3.a The Start

- A series of 3 short sharp blasts on the whistle indicates a swimmer to stand up from the chair.
- 1 long blast of the whistle will be sounded for the swimmer to step forward and approach the starting area.
- On the starters command "take your marks", they shall immediately take up a starting position with at least one foot at the front of the starting area.
- The position of the hands is not relevant. When all swimmers are stationary, the starter shall give the starting signalled by a final short blast of the whistle.
- A physical demonstration of the starting procedures is to take place at the start of the meet.
- The start in Freestyle, Breaststroke, Butterfly and Individual Medley races shall be with a dive.
- The start in Backstroke and Medley Relay shall be from the water.

- At the first long whistle, the swimmers shall immediately enter the water and without undue delay go to the starting position. When all the swimmers have assumed their starting positions, the starter shall give the command “take your marks”. When all swimmers are stationary, the starter shall give the starting signal.
- Starting signal will be appropriate to the timing system used at the host school.
- A swimmer will only be disqualified if they personally cause a false start twice.

10.7.3.b Freestyle

- Freestyle means that in an event so designated the swimmer may swim any style, except that in individual medley or medley relay events, freestyle means any stroke other than backstroke, breaststroke or butterfly.
- Some part of the swimmer must touch the wall upon completion of each length and at the finish.
- Some part of the swimmer must break the surface of the water throughout the race, except it is permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15 metres after the start and each turn. By that point, the head must have broken the surface.

10.7.3.c Backstroke

- Prior to the starting signal the swimmers shall line up in the water facing the starting end, with both hands holding the side. The feet, including the toes can be above the surface but not on the poolside or on the gutter.
- At the signal for starting and after the turning the swimmer shall push off and swim on his back throughout the race except when executing a turn. A normal position on the back can include a roll movement of the body up to and including 90 degrees from the horizontal. The position of the head is not relevant.
- Some part of the swimmer must break the surface of the water throughout the race, except it shall be permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15 metres after the start and each turn. By that point the head must have broken the surface.
- During the turn the shoulders may be turned over the vertical to the breast after which a continuous single arm pull or a continuous simultaneous double arm pull may be used to initiate the turn.
- Once the body has left the position on the back, there will be no kick or arm pull that is independent of the continuous turning action. The swimmer must have returned to a position on the back upon leaving the wall. When executing the turn there must be a touch of the wall with some part of the swimmer’s body.
- Upon the finish the swimmer must touch the wall on the back.
- Backstroke flags are placed 5 m from each end wall of the pool.

The hands shall be brought back on or under the surface of the water. The hands shall not be brought back beyond the hip line, except during the first stroke after the start and turn.
- The feet must be turned outwards during the propulsive part of the kick. A scissors, flutter or downward kick is not permitted. Breaking the surface of the water with the feet is allowed unless followed by a downward dolphin kick.
 - At each turn and at the finish of the race, the touch shall be made with BOTH hands simultaneously at, above, or below the water level. Swimmers will be disqualified for a one handed touch on the turn or at the end of the race. The head may be submerged after the last arm pull prior to the touch, provided it breaks the surface of the water at some point during the last complete or incomplete cycle preceding the touch.
 - During each complete cycle of one arm stroke and one leg kick, in that order, some part of the head must break the surface of the water, except after the start and after each turn the swimmer may take one arm stroke completely back to the legs and one leg kick while totally submerged. The head must break the surface of the water before the hands turn inward at the widest part of the second stroke. A single downward dolphin kick followed by a breaststroke kick is permitted while wholly submerged. Following which, all movements of the legs shall be simultaneous and on the same horizontal plane without alternating movements.

10.7.3.e Butterfly

- From the beginning of the first arm stroke the start and after each turn, the body shall be kept on the breast and both shoulders shall be in line with the normal water surface. Under water kicking on the side is allowed. It is not permitted to roll onto the back at any time.
- Both arms must be brought forward together over water and brought backward simultaneously.
- All movements of the feet must be executed in a simultaneous manner.
- Simultaneous up and down movements of the legs and feet in the vertical plane are permitted. The legs and feet need not be the same level, but no alternating movements are permitted.
- At each turn and at the finish of the race, the touch shall be made with BOTH hands simultaneously, at, above or below the water surface.
- At the start and at turn, a swimmer is permitted one or more leg kicks and one arm pull under the water, which must bring him to the surface. It shall be permissible for a swimmer to be completely submerged for a distance of not more than 15 metres after the start and after each turn. By that point the head must have broken the surface. The swimmer must remain on the surface until the next turn or finish.
